# Statistics: Informed Decisions Using Data, Books a la Carte Edition (4th Edition)

*Michael Sullivan III*

**Statistics: Informed Decisions Using Data, Books a la Carte Edition (4th Edition)** Michael Sullivan III  
This edition features the exact same content as the traditional book in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook.

Mike Sullivan regularly teaches introductory statistics, and this experience has helped him develop a understanding of what today's students need to succeed in the course. **Statistics: Informed Decisions Using Data, Fourth Edition**, provides tools that help students see the bigger picture and make informed decisions. In addition, Mike's contributions to the supplements and technology program make it easier to teach a multi-dimensional, engaging course.

The book offers new features that take advantage of statistical software, so students can focus on building conceptual understanding rather than memorizing formulas. A new example structure offers a bridge between by-hand solutions and the use of technology, and updated technology support appears in each chapter. All the resources—including the author's Camtasia Studio® videos that respond to student questions and his national survey data in StatCrunch—were created for Mike's classroom and are available for use in yours, to help students succeed and stay engaged.

This package consists of:

- Books a la Carte for **Statistics: Informed Decisions Using Data, Fourth Edition**
