Black Creek Gregory Lamberson

In 1979, the US government relocated more than eight hundred families from Love Canal, New York, after decades of toxic contamination. Not all of the residents left: some remained in their homes on the outskirts of the disaster area. Others went underground. Hiding. Changing. Breeding.

Almost four decades later, Love Canal has been renamed Black Creek Village and restored for inhabitation. The residents there and on neighboring Cayuga Island remember the tragedy of Love Canal but have no knowledge of the monsters living below the surface. When the worst snowstorm in forty years isolates all of western New York, the forgotten inhabitants of Love Canal emerge from hiding to reclaim what once belonged to them.

And they are hungry.
