The Original Tactical Convoy Handbook Dean J. Dominique

This is the tactical convoy handbook that started it all. Developed and tested by a proven leader in U.S. Army tactical convoy operations, this handbook was the basis for virtually all tactical convoy handbooks that followed. It is a classic guide that has proven itself in combat many times over. The purpose of this handbook is to provide the tactical convoy commander with a handy reference for doctrine, tactics, techniques and procedures on convoy operations. This handbook contains extracts from doctrine as well as tactics, techniques, and procedures (TTP). It is intended to be used as a field guide for tactical convoy operations. The primary audience for this handbook is the commissioned and non-commissioned officers charged with leading tactical convoys. However, the information contained herein can be used to plan and conduct convoys anywhere and under any conditions. Proceeds from the sale of this book are donated to charities that support America's Wounded Warriors. Check out all of our books at www.woundedwarriorpublications.com
