Mood organs. Scramble suits. Poison tongue darts. Philip K. Dick (1928-1982) may have invented more wildly imaginative creations per novel than any of his peers. An eccentric whose mind danced on the blurry edge between illusion and reality, madness and metaphysics, he produced a body of work that no science fiction reader should ignore. Lacked with humor, compassion, irony and paranoia, the four novels n Counterfeit Unrealities are among his best work.
