This study aid contains more than 200 multiple-choice questions, some of which focus on specific subject areas, and some of which are mixed together in practice exams covering multiple topics. Together, these questions survey most of the material covered in a typical criminal law course. Each question is accompanied by a detailed and thorough explanation of what is the correct answer to each of these questions, and what is not. These answers can be used to foster a deeper understanding of criminal law and to show students exactly how to apply the rules they learned in class on an actual multiple-choice exam.
