Kristin Bright had come to accept that she might always be alone since no relationship ever seemed to work out for her. That is, until she becomes involved with an intriguing younger man, who is actually not as young as she thinks he is. Suddenly, Kristin is aware of a whole new world filled with supernatural secrets that surround her and soon becomes involved in uncovering a past that leads her to believe there is even more to the universe than she'd ever imagined. As she opens her mind, and her heart, not only does her life begin to change, but her future and her very being. As she helps unveil a different history than that known to man and begins to take chances like never before, she discovers a power within herself that makes her question just what she is capable of, and how it could bring her to explore humankind's connection to the unlimited possibilities hidden in the expanse of space.
