Internet and Personal Computing Fads James Van Roekel, Mary Berry, MaryAnn Bell

An easy-to-understand guide to often-confusing computer/Internet jargon!

Internet and Personal Computing Fads is an A-to-Z reference book written in a straightforward style that's informative enough for library use but informal enough for general reading. This essential guide takes a practical look at the most often-seen computer and Internet terms and describes them in easy-to-understand language.

From *Acceptable Use Policy* (AUP) to *Hypertext* to *Y2K*, more than 100 entries are included, featuring historical backgrounds, popular and practical uses, interesting "fun facts," and bibliographies. Detailed enough for reference use by academics, the book has a natural tone that will appeal to students, casual computer users, and those who are intrigued by the chaotic, fascinating, but often frustrating and daunting morass of information known today as the World Wide Web.

A perfect introduction to the world of computers and the Internet, this book presents brief, jargon-free explanations of terms representing a variety of fields of interest, including general computer use, business, entertainment, multimedia development, and education. You'll learn about:

- artificial intelligence
- the history of computer hardware
- the "Mac vs. PC" debate
- Internet domains such as ".com," ".edu," ".gov," and others
- the meanings of commonly used e-mail abbreviations, including BTW, FYI, LOL, and more
- distance learning
- the origin and meaning of the word "cyberspace"
- and a great deal more!

In clear and concise entries, Internet and Personal Computing Fads will help you understand the meaning of terms including:

- bandwidth
- biometrics
- bookmarks
- CAD (computer-assisted design)
- chat rooms
- clip art
- cookies
- cybercafé
- digital audio, video, imaging, and cameras
- dot com
- e-mail, e-books and e-zines
- electronic publishing
- emoticons
- filtering
- freeware (shareware)

- gaming
- Global Positioning Systems (GPS)
- instant messaging
- Internet advertising
- Linux
- MIDI
- mp3
- Spam (Internet junk mail)
- URL
- usenet
- and many, many more!

An everyday guide for enthusiasts and a perfect place to start for newcomers, Internet and Personal Computing Fads is an easy-to-use handbook with wide-ranging appeal. It combines the comprehensive information you'd expect from a reference book with a casual and colorful look at the histories and backgrounds of popular computer/Internet terms and concepts. As a vital resource or an occasional reference, this book is an exceptional value.

From reader reviews:

Cora Morrell:

As people who live in the actual modest era should be change about what going on or facts even knowledge to make these individuals keep up with the era that is always change and move ahead. Some of you maybe can update themselves by looking at books. It is a good choice to suit your needs but the problems coming to a person is you don't know what one you should start with. This Internet and Personal Computing Fads is our recommendation so you keep up with the world. Why, because book serves what you want and want in this era.

Christine Scott:

This Internet and Personal Computing Fads is great e-book for you because the content which can be full of information for you who have always deal with world and get to make decision every minute. This particular book reveal it information accurately using great manage word or we can declare no rambling sentences inside it. So if you are read this hurriedly you can have whole facts in it. Doesn't mean it only provides straight forward sentences but tricky core information with lovely delivering sentences. Having Internet and Personal Computing Fads in your hand like getting the world in your arm, information in it is not ridiculous one particular. We can say that no publication that offer you world with ten or fifteen second right but this reserve already do that. So , this is certainly good reading book. Heya Mr. and Mrs. stressful do you still doubt that will?

Steven Parrish:

Many people spending their time period by playing outside along with friends, fun activity with family or just watching TV all day long. You can have new activity to shell out your whole day by reading a book. Ugh, think reading a book will surely hard because you have to bring the book everywhere? It alright you can have the e-book, delivering everywhere you want in your Cell phone. Like Internet and Personal Computing Fads which is obtaining the e-book version. So , try out this book? Let's find.

Leonie Blazek:

Is it you actually who having spare time in that case spend it whole day by simply watching television programs or just laying on the bed? Do you need something new? This Internet and Personal Computing Fads can be the respond to, oh how comes? The new book you know. You are so out of date, spending your extra time by reading in this completely new era is common not a geek activity. So what these textbooks have than the others?
