How Fiction Works

James Wood

How Fiction Works James Wood

What makes a story a story? What is style? What's the connection between realism and real life? These are some of the questions James Wood answers in *How Fiction Works*, the first book-length essay by the preeminent critic of his generation. Ranging widely—from Homer to David Foster Wallace, from *What Maisie Knew* to *Make Way for Ducklings*—Wood takes the reader through the basic elements of the art, step by step.

The result is nothing less than a philosophy of the novel—plainspoken, funny, blunt—in the traditions of E. M. Forster's *Aspects of the Novel* and Strunk and White's *The Elements of Style*. It sums up two decades of insight with wit and concision. It will change the way you read.
