Prealgebra & Introductory Algebra (case binding) (2nd Edition)

K. Elayn Martin-Gay

Prealgebra & Introductory Algebra (case binding) (2nd Edition) K. Elayn Martin-Gay

Prealgebra and Introductory Algebra 2e is appropriate for a 2-sem sequence of Prealgebra (Basic Math with very early introduction to algebra) and Introductory Algebra (aka Elementary Algebra). This text was written to help students effectively make the transition from arithmetic to algebra and provide a strong foundation for success in their next, intermediate algebra course. To reach this goal, Martin-Gay introduces algebraic concepts early and repeats them as she treats traditional arithmetic topics, and then further develops their exposure to elementary-level algebra topics.
