Sequel to The CEO and the Cowboy

Calhoun's a simple cowboy with more problems in his life than he can handle at the moment. After nearly two years, he struggles to hang onto a relationship with Daniel, his first male lover. Daniel is worried about him because of the fire, his concern for his prized breeding mare, and because he is determined to buy the neighboring ranch to expand. But Daniel isn't a businessman without goals of his own for expansion, a fact that frustrates Calhoun as well. He doesn't want to lose Daniel, but will their differences finally be too much?

Daniel considers himself a lucky man to have met the rancher, someone almost his opposite and someone who he doesn't want to live without. Standing beside the moody Calhoun has been difficult since the fire that burned down a horse barn, took the lives of two valuable horses, and traumatized a favored mare. Along with all of that, his harried friend is determined to expand his ranch holdings. Daniel is against the purchase and would prefer to find a way to slow the man down. Lately, he's also begun worrying if maybe he isn't enough to satisfy his lover's needs.

Complicating everything even more, Ruby shows up later than expected at Calhoun's ranch to honor a job as a horse therapist that her father had agreed to before his sudden death. She knows what happened to the mare and is certain she can help her, if given the chance. But the stubborn rancher can't get past the idea of her being a woman, someone not strong enough to work with such a damaged horse. They butt heads over the matter until she finds an ally in Daniel. He is concerned and yet believes in her abilities. Another problem arises, though. She and Calhoun have been skirting around an unwanted attraction, and then she discovers another surprising interest between her and Daniel...
