Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science)

Lawrence L. Kupper, Brian. H Neelon, Sean M. O'Brien

Exercises and Solutions in Statistical Theory helps students and scientists obtain an in-depth understanding of statistical theory by working on and reviewing solutions to interesting and challenging exercises of practical importance. Unlike similar books, this text incorporates many exercises that apply to real-world settings and provides much more thorough solutions.

The exercises and selected detailed solutions cover from basic probability theory through to the theory of statistical inference. Many of the exercises deal with important, real-life scenarios in areas such as medicine, epidemiology, actuarial science, social science, engineering, physics, chemistry, biology, environmental health, and sports. Several exercises illustrate the utility of study design strategies, sampling from finite populations, maximum likelihood, asymptotic theory, latent class analysis, conditional inference, regression analysis, generalized linear models, Bayesian analysis, and other statistical topics. The book also contains references to published books and articles that offer more information about the statistical concepts.

Designed as a supplement for advanced undergraduate and graduate courses, this text is a valuable source of classroom examples, homework problems, and examination questions. It is also useful for scientists interested in enhancing or refreshing their theoretical statistical skills. The book improves readers' comprehension of the principles of statistical theory and helps them see how the principles can be used in practice. By mastering the theoretical statistical strategies necessary to solve the exercises, readers will be prepared to successfully study even higher-level statistical theory.

From reader reviews:

Alberta Smith:

Throughout other case, little people like to read book Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science). You can choose the best book if you like reading a book. Given that we know about how is important some sort of book Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science). You can add know-how and of course you can around the world by just a book. Absolutely right, since from book you can recognize everything! From your country till foreign or abroad you will end up known. About simple matter until wonderful thing you can know that. In this era, we are able to open a book or searching by internet product. It is called e-book. You should use it when you feel fed up to go to the library. Let's go through.

Errol Garvin:

In this 21st hundred years, people become competitive in every way. By being competitive currently, people have do something to make these survives, being in the middle of often the crowded place and notice through surrounding. One thing that sometimes many people have underestimated this for a while is reading. Yep, by reading a publication your ability to survive increase then having chance to stand than other is high. For you who want to start reading any book, we give you that Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) book as beginner and daily reading book. Why, because this book is usually more than just a book.

Carlos Moses:

Are you kind of occupied person, only have 10 or even 15 minute in your moment to upgrading your mind ability or thinking skill possibly analytical thinking? Then you are experiencing problem with the book in comparison with can satisfy your limited time to read it because all of this time you only find guide that need more time to be study. Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) can be your answer since it can be read by a person who have those short free time problems.

Rebecca Beal:

What is your hobby? Have you heard which question when you got college students? We believe that that concern was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. Therefore you know that little person just like reading or as reading through become their hobby. You should know that reading is very important and also book as to be the matter. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You see good news or update concerning something by book. A substantial number of sorts of books that can you go onto be your object. One of them are these claims Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science).
