Mars! The Red Planet! For generations, people have wondered what it would be like to travel to and live there. That curiosity has inspired some of the most durable science fiction, including Ray Bradbury's *The Martian Chronicles* and the work of Isaac Asimov. Now the award-winning anthologist Jonathan Strahan has brought together thirteen original stories to explore the possibilities. After reading *Life on Mars*, readers will never look at the fourth planet from the sun the same way again.
