Pro Bash Programming, Second Edition: Scripting the GNU/Linux Shell Chris Johnson, Jayant Varma

Pro Bash Programming teaches you how to effectively utilize the Bash shell in your programming. The Bash shell is a complete programming language, not merely a glue to combine external Linux commands. By taking full advantage of Shell internals, Shell programs can perform as snappily as utilities written in C or other compiled languages. And you will see how, without assuming Unix lore, you can write professional Bash 4.3 programs through standard programming techniques.

This second edition has updated for Bash 4.3, and many scripts have been rewritten to make them more idiomatically Bash, taking better advantage of features specific to Bash. It is easy to read, understand, and will teach you how to get to grips with Bash programming without drowning you in pages and pages of syntax.

Using this book you will be able to use the shell efficiently, make scripts run faster using expansion and external commands, and understand how to overcome many common mistakes that cause scripts to fail. This book is perfect for all beginning Linux and Unix system administrators who want to be in full control of their systems, and really get to grips with Bash programming.

From reader reviews:

Vickie Miller:

Is it an individual who having spare time then spend it whole day by means of watching television programs or just lying on the bed? Do you need something new? This Pro Bash Programming, Second Edition: Scripting the GNU/Linux Shell can be the answer, oh how comes? A fresh book you know. You are consequently out of date, spending your spare time by reading in this new era is common not a nerd activity. So what these guides have than the others?

Joseph Esparza:

That reserve can make you to feel relax. This specific book Pro Bash Programming, Second Edition: Scripting the GNU/Linux Shell was colourful and of course has pictures on there. As we know that book Pro Bash Programming, Second Edition: Scripting the GNU/Linux Shell has many kinds or category. Start from kids until teenagers. For example Naruto or Investigation company Conan you can read and feel that you are the character on there. Therefore not at all of book usually are make you bored, any it makes you feel happy, fun and relax. Try to choose the best book to suit your needs and try to like reading in which.

Gerald Reed:

As a scholar exactly feel bored to reading. If their teacher expected them to go to the library or to make summary for some e-book, they are complained. Just very little students that has reading's spirit or real their interest. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that studying is not important, boring as well as can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Pro Bash Programming, Second Edition: Scripting the GNU/Linux Shell can make you feel more interested to read.

Richard Chambers:

A number of people said that they feel bored when they reading a e-book. They are directly felt it when they get a half portions of the book. You can choose the actual book Pro Bash Programming, Second Edition: Scripting the GNU/Linux Shell to make your own personal reading is interesting. Your skill of reading expertise is developing when you including reading. Try to choose easy book to make you enjoy to see it and mingle the sensation about book and reading especially. It is to be initial opinion for you to like to wide open a book and examine it. Beside that the guide Pro Bash Programming, Second Edition: Scripting the GNU/Linux Shell can to be your new friend when you're truly feel alone and confuse in what must you're doing of their time.
