Lays the foundation for new methods and applications of carbohydrate click chemistry

Introduced by K. Barry Sharpless of The Scripps Research Institute in 2001, click chemistry mimics nature, giving researchers the tools needed to generate new substances quickly and reliably by joining small units together. With contributions from more than thirty pioneering researchers in the field, this text explores the many promising applications of click chemistry in glycoscience. Readers will learn both the basic concepts of carbohydrate click chemistry as well as its many biomedical applications, including synthetic antigens, analogs of cell-surface receptors, immobilized enzymes, targeted drug delivery systems, and multivalent cancer vaccines.

Click Chemistry in Glycoscience examines a broad range of methodologies and strategies that have emerged from this rapidly evolving field. Each chapter describes new approaches, ideas, consequences, and applications resulting from the introduction of click processes. Divided into four sections, the book covers:

- Click chemistry strategies and decoupling
- Thio-click chemistry of carbohydrates
- Carbohydrate click chemistry for novel synthetic targets
- Carbohydrate click chemistry in biomedical sciences

Thoroughly researched, the book reflects the most recent findings published in the literature. Diagrams and figures throughout the book enable readers to more easily grasp complex concepts and reaction processes. At the end of each chapter, references lead to the primary literature for further investigation of individual topics.

The application of click chemistry to carbohydrates has tremendous implications for research. With this book as their guide, researchers have a solid foundation from which they can develop new methods and applications of carbohydrate click chemistry, including new carbohydrate-based therapeutics.

From reader reviews:

Emma Anderson:

Reading a reserve tends to be new life style within this era globalization. With looking at you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can easily share their idea. Guides can also inspire a lot of people. Many author can inspire their particular reader with their story or maybe their experience. Not only the storyline that share in the books. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book that you can get now. The authors in this world always try to improve their proficiency in writing, they also doing some analysis before they write with their book. One of them is this Click Chemistry in Glycoscience: New Developments and Strategies.

Craig Palmer:

Playing with family within a park, coming to see the coastal world or hanging out with friends is thing that usually you will have done when you have spare time, after that why you don't try issue that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Click Chemistry in Glycoscience: New Developments and Strategies, you can enjoy both. It is fine combination right, you still wish to miss it? What kind of hang type is it? Oh can occur its mind hangout fellas. What? Still don't get it, oh come on its called reading friends.

Richard McCormick:

Beside that Click Chemistry in Glycoscience: New Developments and Strategies in your phone, it could possibly give you a way to get more close to the new knowledge or info. The information and the knowledge you can got here is fresh in the oven so don't be worry if you feel like an old people live in narrow village. It is good thing to have Click Chemistry in Glycoscience: New Developments and Strategies because this book offers to your account readable information. Do you sometimes have book but you would not get what it's all about. Oh come on, that will not happen if you have this in your hand. The Enjoyable blend here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss that? Find this book in addition to read it from currently!

Stephanie Hopkins:

Publication is one of source of expertise. We can add our knowledge from it. Not only for students but additionally native or citizen want book to know the update information of year in order to year. As we know those textbooks have many advantages. Beside we all add our knowledge, also can bring us to around the world. Through the book Click Chemistry in Glycoscience: New Developments and Strategies we can get more advantage. Don't that you be creative people? To be creative person must prefer to read a book. Merely choose the best book that acceptable with your aim. Don't become doubt to change your life with this book

Click Chemistry in Glycoscience: New Developments and Strategies. You can more attractive than now.
