Badiou and Hegel: Infinity, Dialectics, Subjectivity

Badiou and Hegel: Infinity, Dialectics, Subjectivity offers critical appraisals of two of the dominant figures of the Continental tradition of philosophy, Alain Badiou and G.W.F. Hegel. Jim Vernon and Antonio Calcagno bring together established and emerging authors in Continental philosophy to discuss the relationship between the thinkers, creating a multifarious collection of essays by Hegelians, Badiouans, and those sympathetic to both. The text privileges neither thinker, nor any particular topic shared between them; rather, this book lays a broad and sound foundation for future scholarship on arguably two of the greatest thinkers of infinity, universality, subjectivity, and the enduring value of philosophy in the modern Western canon. Assuredly overdue, this volume will attract Hegel and Badiou scholars, as well as those interested in post-structuralism, political philosophy, cultural studies, ontology, philosophy of mathematics, and psychoanalysis.
