**Creatures of the Abyss** Murray Leinster

"From the ocean depths... terror stalked mankind."

\*\*\*\*\*

An excerpt from Chapter Seven:

AS the *Esperance* sailed northward, she looked almost unreal. From a distance she might have been an artist's picture of an imaginary yacht heeled over in the wind, sailing splendidly over a non-existent ocean. The sky was a speckless blue, the sun was high.

But she was real enough, and the China Sea around her was genuine, and what had taken place where the *Pelorus* lay now hull-down, stowing a ruined bathyscaphe in her hold, had unquestionably taken place.

Something monstrous and terrible was hidden in the dark abyss below the yacht. The ferocity of its attack on the bathyscaphe was daunting. And ferocity has always, somehow, a suggestion of madness about it. But the humming sound in the sea was not the product of madness. It was a technical achievement. And plastic objects with metal inclusions....

Davis joined Deirdre and Terry. Before Davis could speak she said, "I can't imagine any guess that will add everything together, Terry."

Davis made a jerky gesture.

"Today's business is beyond all reason," he said unhappily, "and if there ever was an understatement, that's it! If there can be any conceivable motive for the plastic objects, which the *Pelorus* dismisses as hoaxes, the motive is to use them to find out something about surface conditions; that is, for surface conditions to be reported back. And that's not easy to imagine. But try to think of something easier! And yet, such mindless ferocity as attacked the bathyscaphe ... that wouldn't be curious about the surface!"
