One of the most common questions asked of astrologers is "What about my love life?" - or more specifically, When will I marry? What do I need in a partner? Is she the one for me? Is he my soulmate?

Although Venus is usually considered the most important planet with regard to love and relationships, Juno operates as "The Marriage Asteroid" - providing a key to one's attitudes about love and the type of partner they will choose, as well as the timing of marriages and other committed relationships.

Maritha Pottenger's newest booklet will provide you with the tools to make better choices for yourself or provide more detailed and practical advice to clients. Includes an ephemeris of Juno Placements from 1937 - 2010.

The newest addition to Astro's "All About Astrology Series," this 32-page booklet will provide you with the answers you seek regarding your intimate relationships.
